

Mohand Amged

Full stack developer
[Linkedin](#) [GitHub](#) [Portfolio](#)

EDUCATION

Alexandria University
Bachelor of Surveying & GIS

Expected: May 2027

- Relevant Coursework: Geographic Information Systems (GIS) & Remote Sensing, Cartography & Spatial Data Analysis

EXPERIENCE

Carrefour Egypt
Section Supervisor

Feb 2025– Present

- Managing daily operations of the refrigeration and frozen section.
- Monitoring stock levels, ensuring product freshness, and maintaining proper storage conditions.
- Handling customer inquiries and resolving issues to maintain satisfaction.

PROJECTS

[Games Hub](#)

Technologies: [Next.js](#), [Next.js](#) API, MongoDB, tailwind

- Developed a full-stack web application that allows users to explore and manage a collection of games.
- Implemented user authentication and authorization using **JWT**.
- Designed and built **RESTful APIs** with [Next.js](#) API and MongoDB for handling game data and user profiles.
- Integrated a **React** frontend for a dynamic and responsive UI.

[Personal financial management](#)

Technologies: Nextjs, Nextjs API, MongoDB, tailwind, shadcn

- Built a web application to help users **track income, expenses, and savings goals**.
- Developed **RESTful APIs** for transactions, categories, and budgeting features.
- Applied **MongoDB aggregation pipelines** for generating monthly/annual financial reports.
- Integrated **data visualization (Chart.js)** to provide users with interactive dashboards for spending insights.

[Event Sphere](#)

Technologies: Nodejs, Expressjs, React , mongodb

- Developed a full-stack event management platform where users can **create, discover, and register for events**.
- Designed and implemented **RESTful APIs** for events, users, and registrations using [Express.js](#).
- Created an interactive **React frontend** for event browsing and user dashboards.

TECHNICAL SKILLS

Programming Languages: TypeScript, JavaScript, Python

Frameworks and Tools: React.js, [Node.js](#), [Express.js](#), mongodb, Next.js GitHub Actions
